www.sygnum.com

Sygnum is the world's first regulated digital asset bank, founded on Swiss and Singapore heritage, operating globally. Sygnum makes digital assets bankable, secure and convenient, empowering clients to invest in the digital asset economy with complete trust.

Gino Wirthensohn, Head of RegTech Solutions at Sygnum Bank, is working on innovation projects at the intersection of regulations and distributed ledger technology. Previously, Gino was a co-founder of an award-winning RegTech/FinTech start-up and has held positions in legal, compliance, and risk management in banking and consulting.

Gino holds a Master of Law from the University of Lucerne and a Bachelor in Business Law from the Zurich University of Applied Sciences ZHAW.
